DETAILED ACTION

Allowable Subject Matter

Claims 26-27 and 29 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach a method of treating an aneurysm that includes, among all the limitations, applying the external agent through the catheter and into the aneurysm to thereby activate the barrier to expose the bioactive agent to bodily tissue to thereby cause a reaction between the bioactive agent and the bodily tissue.

The prior art most similar is to Eder et al (USPN 6,299,627). Eder discloses a vasoocclusive device that has an inner coating and an outer coating. The reference does not teach applying an external agent through a catheter and into the aneurysm to activate the barrier (or outer coating) to expose the bioactive agent (inner coating) to bodily tissue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine S. Williams whose telephone number is 571/2724970. The examiner can normally be reached on Monday - Friday.
